World Health Organization (WHO) | who.int

- **WHO Director-General’s opening remarks at the media briefing on COVID-19 - 25 March 2020** [03-25-2020]
  - “There are six key actions that we recommend.
  - First, expand, train and deploy your health care and public health workforce;
  - Second, implement a system to find every suspected case at community level;
  - Third, ramp up the production, capacity and availability of testing;
  - Fourth, identify, adapt and equip facilities you will use to treat and isolate patients;
  - Fifth, develop a clear plan and process to quarantine contacts;
  - And sixth, refocus the whole of government on suppressing and controlling COVID-19.”
- **Coronavirus disease 2019 (COVID-19) Situation report – 64** [03-24-2020]

**ECDC: European Centre for Disease Prevention and Control | ecdc.europa.eu**
- **Situation update for the EU/EEA, and the UK**
  - As of **25 March 2020**, 204,930 cases and 11,810 deaths have been reported in the EU/EEA and the UK.
  - The risk of severe disease associated with COVID-19 for people in the EU/EEA and the UK is currently considered moderate for the general population and very high for older adults and individuals with chronic underlying conditions.
The risk of occurrence of widespread national community transmission of COVID-19 in the EU/EEA and the UK in the coming weeks is moderate if effective mitigation measures are in place and very high if insufficient mitigation measures are in place.

The risk of healthcare system capacity being exceeded in the EU/EEA and the UK in the coming weeks is considered high.
