Public Health Agencies

Public Health Agency of Canada | canada.ca

- 2019 novel coronavirus: outbreak update
  - **August 19, 2020**, 19:00 EDT, **123,490** cases of COVID-19 have been confirmed in Canada. **9,049** people have died of COVID-19. Individuals tested: **4,925,446**.
  - **August 18, 2020**, 19:00 EDT, **123,154** cases of COVID-19 have been confirmed in Canada. **9,045** people have died of COVID-19. Individuals tested: **4,880,172**.
  - **August 17, 2020**, 19:00 EDT, **122,872** cases of COVID-19 have been confirmed in Canada. **9,032** people have died of COVID-19. Individuals tested: **4,840,043**.

- Statement from the Chief Public Health Officer of Canada [08-19-2020]
  - “As we continue with reopening, including very importantly our schools, this won’t be 2019’s back to work and school, but back to modified spaces, adapted routines, and mitigation protocols that are an integral part of our cautious approach to reopening to keep the COVID-19 infection rate down. There will be uncertainties ahead but we have shown strength and adaptability throughout and Canada’s children will continue to show their resilience as they get back to in-school learning and socializing that is key to helping them achieve their best long-term outcomes.

Today, I also want to acknowledge another group of resilience builders. Throughout the COVID-19 crisis, humanitarians have been working to protect those at high risk of COVID-19 and build resilience in communities across Canada and around the world. Today on World Humanitarian Day, I want to salute these real-life heroes who live and work among us.”

• Coronavirus disease (COVID-19) weekly epidemiological update – 1 [08-17-2020]
• WHO Director-General’s opening remarks at the Member State briefing on COVID-19 [08-20-2020]
  o “As new diagnostics, medicines and vaccines become available, it’s critical that countries don’t repeat the mistakes early on in the response, when some countries hoarded supplies. Since May, WHO has been in extensive discussions to develop a new framework to guide fair and equitable access to diagnostics, therapeutics and vaccines. As part of the ACT Accelerator, the COVAX Global Vaccines Facility is the critical mechanism for joint procurement and pooling risk across multiple vaccines. Earlier this week I sent a letter to every Member State encouraging you to join the COVAX Facility. This is not just the right thing to do, it’s the smart thing to do. Sharing finite supplies strategically and globally is in each country’s national interest. The fastest way to end the pandemic and reopen economies is to start by protecting the highest risk populations everywhere, rather than the
entire populations of just some countries. No one country has access to all the research and development, all the manufacturing capacity and all the supply chain for all essential medicines and materials. We all need each other.”
