New Content (updated daily)

Public Health Agencies

Public Health Agency of Canada | canada.ca

COVID-19 is a serious health threat, and the situation is evolving daily. The risk varies between and within communities, but given the number of cases in Canada, the risk to Canadians is considered high.

- **2019 novel coronavirus: outbreak update**
  - **July 22, 2021, 19:00 EST, 1,425,097** cases of COVID-19 have been confirmed in Canada and there are currently **4,511** active cases. **26,526** people have died of COVID-19. Individuals tested: **38,054,489**.
  - **July 21, 2021, 19:00 EST, 1,424,715** cases of COVID-19 have been confirmed in Canada and there are currently **4,737** active cases. **26,512** people have died of COVID-19. Individuals tested: **37,994,464**.
  - **July 20, 2021, 19:00 EST, 1,424,220** cases of COVID-19 have been confirmed in Canada and there are currently **4,595** active cases. **26,508** people have died of COVID-19. Individuals tested: **37,947,625**.

- **COVID-19 vaccination in Canada**
  - As of **July 22, 2021, 19:00 EST**, there have been **46,749,913** vaccine doses administered.
  - As of **July 22, 2021, 14:00 EST**, there have been **46,641,012** vaccine doses administered.
  - As of **July 21, 2021, 19:00 EST**, there have been **46,369,227** vaccine doses administered.

- **Statement from the Chief Public Health Officer of Canada [07-23-2021]**
  - As public health restrictions are eased, some increase in cases, particularly among unvaccinated populations, is not unexpected. In recent days, we have been closely monitoring some increased disease activity in several jurisdictions, which is reflected in national case counts. Today's 7-day moving average of 448 new cases reported daily (July 16-22), shows a further increase (13%) over the previous week, compared to the 2.6% increase based on yesterday's 7-day moving average.

- **Statement from the Chief Public Health Officer of Canada [07-22-2021]**
  - “Today, Canada's National Advisory Committee on Immunization (NACI) has released [updated guidance](https://www.canada.ca/en/public-health/services/diseases/coronavirus-covid-19.html) on the use of COVID-19 vaccines. NACI's latest guidance, continues to recommend that people who were previously infected with the SARS-CoV-2 virus may receive a full series of COVID-19 vaccines. In making this recommendation NACI considered a range of factors, including data from real-world studies on the protective immune response offered by previous SARS-CoV-2 infection, the immune responses after one and two doses of a COVID-19 vaccine series in previously infected people, and the safety of offering two doses to previously-infected people.”

- **Summary of National Advisory Committee on Immunization (NACI) updates of July 22, 2021 [07-22-2021]**
- **Statement from the Chief Public Health Officer of Canada [07-21-2021]**
- **Government of Canada funds three new projects to encourage COVID-19 vaccination in Canada [07-20-2021]**
- **Backgrounder: new projects funded under the immunization Partnership Fund [07-20-2021]**

- Vaccine inequity undermining global economic recovery [07-22-2021]
- WHO Director-General’s opening remarks at the WTO - WHO high level dialogue: expanding COVID-19 vaccine manufacture to promote equitable access [07-21-2021]
  - “There are many diseases for which we lack vaccines, good tests and effective treatments. Not so for COVID-19. We have all the tools we need. That means ending the pandemic is not fundamentally a test of scientific discovery, financial muscle or industrial prowess; it’s a test of character. Let’s together address the serious challenge of vaccine inequity. Please help us achieve this 70% target of vaccinating the population in all countries. I know we can do it, and I expect a strong support from the private sector to realise the 70% by mid-next year that could help us end the pandemic. Whatever options we use, the most important is increasing the production capacity significantly so there is enough pie to share, there are enough vaccines to achieve the 70% by mid-next year and open up the world and bring lives and livelihoods to normality.”
