Public Health Agencies

Public Health Agency of Canada | canada.ca

- **2019 novel coronavirus: outbreak update**
  - **November 22, 2020, 19:00 EDT**, 330,503 cases of COVID-19 have been confirmed in Canada and there are currently 54,999 active cases. 11,455 people have died of COVID-19. Individuals tested: 10,881,653.
  - **November 21, 2020, 19:00 EDT**, 325,711 cases of COVID-19 have been confirmed in Canada and there are currently 53,907 active cases. 11,406 people have died of COVID-19. Individuals tested: 10,822,809.
  - **November 20, 2020, 19:00 EDT**, 320,719 cases of COVID-19 have been confirmed in Canada and there are currently 52,739 active cases. 11,344 people have died of COVID-19. Individuals tested: 10,746,717.

- **Statement from the Chief Public Health Officer of Canada [11-22-2020]**
  - “As we head into the holiday season, I encourage Canadians to take some time today to make a plan for safer holidays, ensuring that you consider the risks to yourself and your loved ones. Our best protection, now and into the holiday season, is to limit errands and outings to the essentials, keep in-person social activities to our existing household and strictly and consistently maintain public health practices. That doesn’t mean we can’t continue to find safe ways to have the meaningful celebrations that are so important for maintaining our traditions and social connections. We have seen how creative Canadians can be, from online game nights and sharing special meals together virtually with people outside our household, to warmly-dressed, physically distanced walkabouts and cheering our neighbours with decorated balconies, windows and lawns.”

- **Statement from the Chief Public Health Officer of Canada [11-21-2020]**
  - “Avoid the three C's as much as possible: closed spaces with poor ventilation, crowded places where many people gather, and close contact situations where you cannot keep two metres apart. Importantly, please follow the guidance of your local public health authorities.”

- **Independent panel to review Global Public Health Surveillance System [11-18-2020]**

World Health Organization (WHO) | who.int
• WHO Director-General’s opening remarks at the media briefing on COVID-19 [11-20-2020]
  o “Today is World Children’s Day. As our colleagues at UNICEF say, it’s a day to reimagine a better future for every child. Although children are less at risk from severe COVID disease, children have suffered from the pandemic in many ways. Our response to the pandemic, and the way we recover from it, will shape the world our children grow up in. That makes it even more important to fight the pandemic with every tool at our disposal – to save lives now and give our children a better future.”
